

HOME RENOVATION · CAMP DE MAR, MALLORCA

Camp de Mar Home

From a stripped-out interior to a home open to
the sea.

Project dossier · NSG Interior Design & Projects

THE PROJECT

Opening the house *to the sea*.

The construction photos show the starting point: a gutted interior, with partitions, floors and ceilings removed and sea light coming through the windows.

The result is an open living area — lounge, dining and kitchen — with large-format light flooring, natural timber and bathrooms clad in grey stone with warm lighting.

WHAT NSG DID

- 01 Interior demolition and a new layout for the living area, opened towards the windows.
- 02 New installations and false ceilings with recessed lighting.
- 03 Anthracite-grey kitchen with a timber bar, wine cooler and oven columns.
- 04 Timber slat screen beside the kitchen.
- 05 Grey-stone bathrooms with walk-in showers and lit niches.
- 06 Basins on timber worktops with LED light and backlit mirrors.
- 07 Large-format light continuous flooring and a newly furnished living room.

THE WORKS

From *demolition* to finish.

New installations

Fitting the kitchen

Timber slat screen

Bathroom cladding
