

HOSPITALITY · PASEO MALLORCA, PALMA

Adrián Quetglas Restaurant

Nature enters the dining room.

Project dossier · NSG Interior Design & Projects

THE PROJECT

Green takes the *lead*.

A renowned restaurant on Paseo Mallorca, with a dining room dominated by a timber shelving unit, Mallorcan shutters used as screens and a white bar that made the space feel cold.

The brief: bring the idea of nature indoors and give the venue a more elegant, warm and modern feel, while keeping its essence so guests would still feel at home.

LOCATION	Paseo Mallorca, Palma
TYPE	Restaurant renovation and styling
AREA	110 m ²
CLIENT	Restaurant of chef Adrián Quetglas (one Michelin star)

WHAT NSG DID

- 01 Custom wall in stabilised moss and timber, replacing the original shelving.
- 02 Bar redesigned in timber, metal and acrylic, with a backlit panel of natural plants.
- 03 Wine display reworked in timber, iron and warm indirect light; space created for the wine fridges.
- 04 Timber slat screens replacing the Mallorcan shutters.
- 05 Hanging planter designed by NSG, a hanging garden by the windows.
- 06 New furniture and upholstery: tables, chairs and velvet armchairs.
- 07 Warm indirect LED lighting to highlight the focal points.

CONCEPT AND MATERIALS

Natural, living materials.

Stabilised moss and birch, ferns under glass on the bar, aged timber, black iron, nautical rope and velvet fabrics. A palette of cream, olive, moss, fern, walnut and charcoal, and warm light that turns every corner into an intimate place.

THE WORKS

From a bare wall to a *vertical garden*.

The wall, prepared for the moss

The moss goes on piece by piece

The moss and birch wall takes shape

Fitting the bar's backlit panel

BEFORE AND AFTER

The dining room: from shutters and shelving to velvet and moss

BEFORE AND AFTER

The wine display: from white lacquer to timber, iron and light

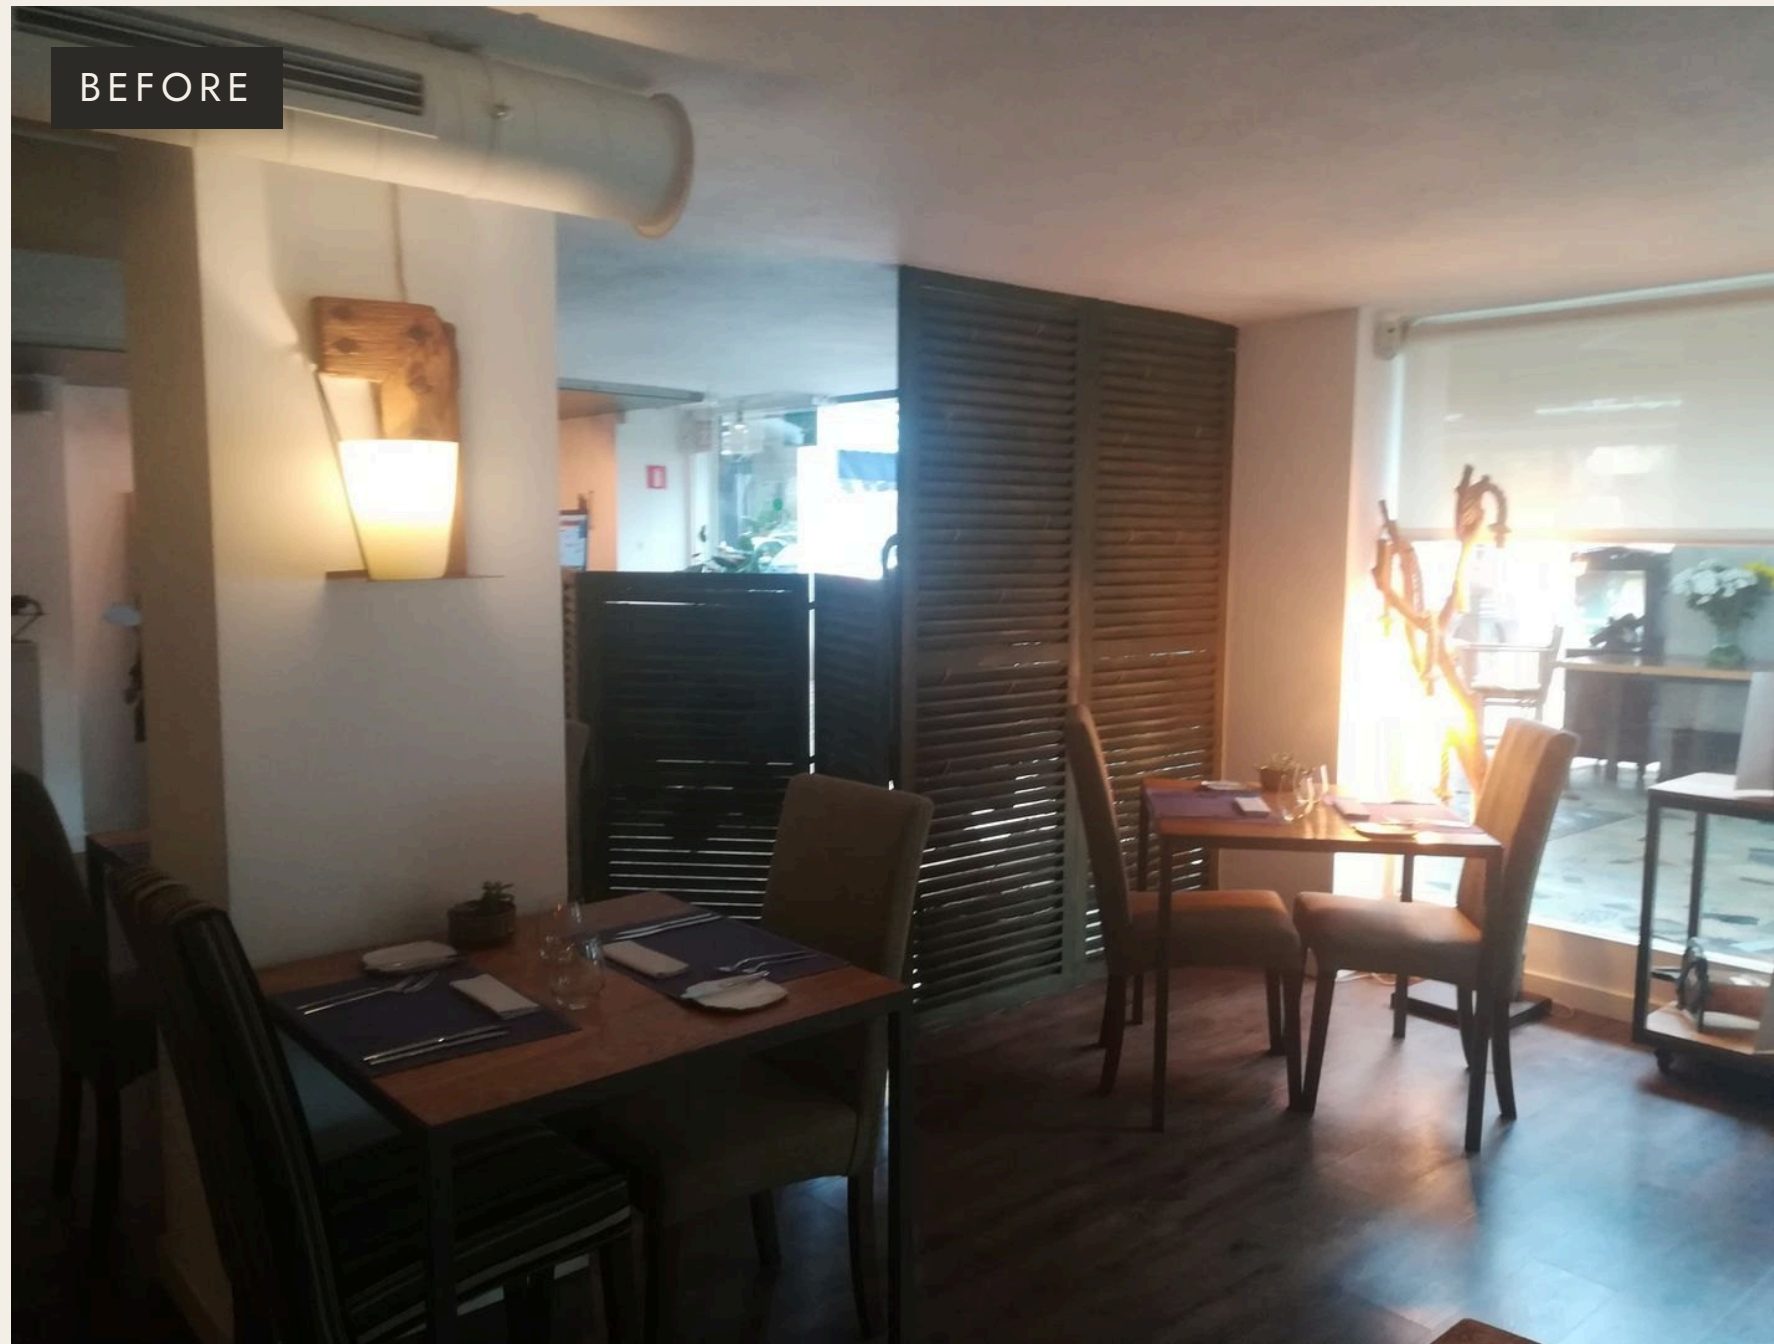

BEFORE AND AFTER

The bar: backlit ferns

BEFORE AND AFTER

The entrance: timber slats instead of shutters

THE RESULT

THE RESULT

Every space has a story.
